

Plant the Seed of Learning is an early childhood education initiative that supports the foundation of learning for children ages **birth to two years old**. By age three, 85 percent of a child's core brain structure is formed, driving the need to support a child's education from birth.

The classes listed below will offer helpful tips on early childhood education in a playful environment. Local medical and school district professionals will present the classes.

All classes are FREE and offered at the Pequea Valley Public Library.
31 Center St, Intercourse, PA 17534.
