

MATH ALL AROUND US

Station 1: COLOR RINGS SORTING BOARD

Directions:

Assist your child as they match colored rings to colored pegs.

Math and Fine Motor Development:

- Talk about the color of the rings
- Sort the rings by color
- Let baby grip the rings and try to put them on the peg
- Count the rings

Station 2: SHAPE DISCOVERY BOXES

Directions:

Assist your child as they examine shape found in each container.

Math and Fine Motor Development:

- Help baby take items in and out of the container
- Talk about the items in the containers in order to build vocabulary
- Match items with the correct shape container
- Talk about shapes and have your child find a shape as you call it out. Say, "Find the triangle."

Station 3: Color Cards

Directions:

Help your child match the correct color play dough with the color card.

Math and Fine Motor Development:

- Talk about the colors and practice naming them. Say, "Can you find the blue card?"
- Make dough balls and then place them on the correct color card in order to make a match.
- Count the dough balls that your child makes.

Station 4: PUZZLES

Directions:

Help your child fit puzzle pieces in the correct spot.

Math and Fine Motor Development:

- Assist babies as they match puzzle pieces with the correct picture
- Identify the names of each picture. Say, "Can you find the lion?"

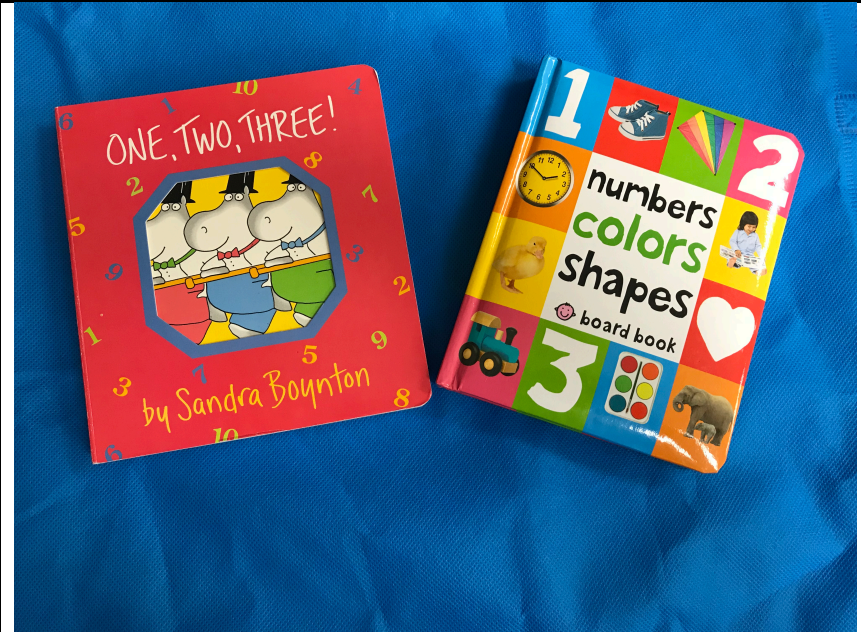

Station 5: MATH BOARD BOOKS

Directions:

Read the books to your child.

Math and Fine Motor and Development:

- Talk about the pictures in the book as you read the story. Let your child turn the pages.
- Practice counting the items found inside the book
- Talk about the shapes and colors found on each page

Station 6: Counting

Learn to Count! Dough Mats
\$12.99

Directions:

Count with your child. Examine the mat and make do shapes to match the number needed.

Math and Fine Motor and Development:

- Practice counting
- Make enough dough shapes to match the number
- Talk about the picture
- Practice 1:1 counting by counting and touching each dough piece.
