

Plant the Seed of Learning is an early childhood education initiative that supports the foundation of learning for children ages birth to two. By age three, 85 percent of a child's core brain structure is formed, driving the need to support a child's education from birth.

The classes listed below will offer helpful tips on early childhood education in a playful environment. Local medical and school district professionals will present the classes.

All class times are 5-6 p.m. for children babies - age 2.
