

Plant the Seed of Science Exercising the Senses

Station 1: Seeing STATION

Directions:

- Materials: board books and color viewers
- In this station families and children will look at Baby University ABC's Board Book set. They will use the board books to talk about the pictures, colors, etc.
- Families will also use the color view finders to look at objects in different colors. They will talk about the colors they see.

Station 2: Hearing Station

Directions:

- In this station families will use the music makers instruments to make different sounds.
- Families can also sing songs and nursery rhymes while keeping a steady beat.

--	--

Station 3: Touch Station

Directions:

- In this station families will catch and watch the bubbles float in the air. They will also use foam paint to draw on construction paper.

Station 4: Smell Station

Directions:

- In this station families will use tweezers to pick up balls of scented dough.
